900RW Series Thermal Window Wall

Tubelite's 900RW Series offers solutions for between slab strip window applications. The 2-1/4" wide system is available in 4-1/2" and 6" depths. Glazing options include all captured, silicone glazed verticals, and exterior glazing for spandrel areas.

Optional integrated slab edge finishes off the building's exterior, and head and sill starters enable complete installation from the inside of the building. The single or dual thermal break option help ensure project energy compliance at the best value.

Labor Savings with Thermal Performance

The single or dual cavity pour and debridge ultra-thermal barrier with Azon's Lancer[™] Mechanical lock improves performance where more stringent energy codes apply.

Therml=Block Curtainwall, Storefronts and Entrances compliment the system providing a complete package that's easy to fabricate and install.

The 900RW Series Thermal Window Wall is available with Tubelite's high recycled aluminum content, Ecoluminum, and environmentally friendly paint and anodized finishes from Linetec.

900RW Series Thermal Window Wall

System Features:

- Single or dual cavity pour and debridge ultra-thermal barrier options help ensure compliance to project energy requirements. See U-Factor and CRF performance data below.
- Stick fabricated with screw spline construction.
- Captured and silicone glazed verticals.
- Can be used with Aluminate Light Shelves and MaxBlock sun shades.
- Head and sill starters, slab edge covers, interior and exterior glazing.

900RW Series Ribbon Window Product Specifications

Application: Low to mid-rise Ribbon Window with both interior and exterior glazing Description: 2-1/4" x 4-1/2" or 6" exterior set, screw spline construction, thermal or dual thermal, field or shop glazed window wall
